

california **water** technologies LLC

****Press Release****

California Water Technologies (CWT), Santa Fe Springs California, is pleased to announce the successful completion of its ISO 9001/14001 surveillance audit. This is the second surveillance audit to occur since the company obtained its ISO 9001 and 14001 certifications in July 2002. CWT is proud of this accomplishment and considers it proof of our commitment to outstanding environmental and quality management.

As we look forward to the coming years, CWT is committed to the continual improvement of its management systems, and we will strive to anticipate and meet your needs as our customer. We look forward not only to expanding growth opportunities, but also to cleaner and safer operations that produce the quality products our customers demand and deserve.

Better quality to you, and a better environment for generations to come - this is our commitment.

If you have any questions regarding CWT's product lines, services, or management systems, please contact your sales representative, Dan Zinman, at 760-598-8936.

Thank you for allowing us to serve you.
